

# Schindler 1000 Plus

Simple, reliable and compact

# Schindler modernization solutions

## Keeping passengers moving

We're using our globally renowned expertise to provide you with the very best elevator modernization solutions. Our Swiss-precision engineering and proven systems improve the reliability, safety, performance and aesthetics of your elevator – increasing your building's overall value.

## Benefit from latest technologies

Our replacement elevators allow your passengers not only to enjoy noticeably smoother, quieter operation but also another level of passenger experience thanks to digitally enhanced mobility. Residents and tenants will appreciate the additional comfort and convenience your modernization brings to their life. Enjoy seamless mobility with no complaints.

## Improved safety

Safety is a top priority at Schindler. Our new, modular-platform product range ensures improved safety for customers, visitors, residents and passengers.

# Schindler 1000 Plus

## Simple, reliable and compact

Replacement made easy: easy to choose, easy to plan, easy to own and easy to use. It's also safe, stylish and tailored to existing building requirements. The Schindler 1000 Plus is designed to fulfill the unique requirements of residential buildings with comfort, efficiency and style.

Schindler 1000 Plus is part of Schindler's new modular-platform replacement product range for residential and commercial buildings worldwide, from low-rise to mid-rise and from basic to sophisticated requirements.

### Key figures

<b>Capacity</b>	340 - 544 kg

<b>Stops</b>	Max 16 stops
<b>Speed</b>	0.63 - 1.0 m/s
<b>Drive system</b>	Machine room-less, eco-friendly regenerative drive technology, frequency controlled
<b>Group size</b>	Up to 4 cars
<b>Entrances</b>	One sided
<b>Interior</b>	One interior design line with fresh wall colors

### Value for money

Swiss precision, tranquility and security – conforming to the latest standards

### Compact design

Fits your elevator shaft perfectly.

### Future ready

Elevators designed to interface with next-generation technologies.

### Simply stylish

An attractive, easy-to-combine selection of décor and fixtures for the best match to your building.

\*Fan position and number of light elements may vary according to car size.

# Value for money

## Swiss precision, value engineered

Schindler 1000 Plus is part of our new product family, a modular platform of high-quality components that delivers smoother, quieter and more reliable performance. It's designed to be highly efficient - both economically and ecologically.

### Reliable operation

Schindler 1000 Plus's standardized components and pre-engineered solutions ensure reliable performance with the highest quality standards. This offers benefits throughout the entire life cycle of your elevator: easy maintenance, high availability and minimum downtime.

### Smooth ride experience

Schindler 1000 Plus features a gearless drive system with Suspension Traction Media (STM) to ensure efficient operation and long-term availability. Our new, lightweight elevator car and upgraded fixation system offers passengers both a smoother and quieter ride.

### Innovative drive technology

Regenerative drive technology is standard throughout our new modular product family, including Schindler 1000 Plus. This reduces travel energy by 30% compared to conventional technology.

### Environmentally sound

Improving energy efficiency is essential for reducing the environmental impact of elevators and the buildings they serve. Eco-friendly features such as regenerative drive, LED lighting and stand-by mode while parked are standard in all Schindler 1000 Plus elevators. This makes it possible to achieve the highest energy-efficiency rating, class A according to ISO 25745-2.

\*The classification always refers to a specific customer configuration. Usage pattern, load capacity, customer specific options and site conditions influence the final rating.

# Compact design

## Optimal use of existing space

Schindler 1000 Plus benefits from the MRL (machine room-less) layout, traction machines and compact components that are included throughout our new modular product family. This optimizes the use of shaft space and reduces building adaptation costs.

### **Machine-room-less design**

All the main components sit in the shaft, eliminating the need for a machine room and eliminating complex access or creating space for other usage.

### **Optimised headroom**

System designed to require minimal headroom to fit in the existing shaft headroom.

### **Smaller motor and traction sheave**

Suspension Traction Media (STM) saves shaft space and energy by using a smaller motor and sheave.

### **Built-in controller on landing door**

The Schindler 1000 Plus controller panel is integrated into the landing door frame, for simple installation and maintenance access.

### **Wide selection of door sizes for a seamless fit**

Ensuring adaption to different code and building requirements.

# Future ready

## Designed for next-generation technologies

Benefit from our tools, solutions and latest innovations providing improved equipment reliability, uptime, safety and an all-new superior passenger experience. Our elevators are designed to use state-of-the-art technologies from planning to operation.

### Innovation in installation

Schindler's new **INEX (Installation Excellence)** method not only reduces construction preparation and resources for our customers, but also improves safety and efficiency on site.

### Digital solutions tailored to your needs

All our new elevators are fully enabled for Schindler Ahead – our digital portfolio for smart elevators. Designed on the principles of IoT (Internet of Things) and machine learning, it analyzes cloud-based data to deliver improved uptime, insights and convenience.

### Smart operation – clarity and convenience

Digital connectivity allows for better maintenance and management, while creating higher levels of comfort for passengers. With Schindler Ahead, we make sure that our customers can enjoy the benefits of the digital era with confidence.

#### – Maximize uptime with Ahead Remote Monitoring

With digital connectivity, issues can be detected and addressed long before service is affected. This helps facilities take timely action to minimize or even avoid downtime. Schindler Ahead maximizes uptime thanks to instant, accurate insights.

#### – Real-time insights with Ahead ActionBoard

Ahead ActionBoard provides operational, performance and commercial information in real time, giving customers clear, instant oversight of their entire elevator and escalator portfolio.

### User experience on a next level

Inform, engage, entertain. Display engaging multimedia content for your passengers and generate new revenue streams through advertising. Turn your elevator into an infotainment hub with **Ahead SmartMirror** and **DoorShow**.

With valuable information at your finger tips, preventive and predictive action can be taken more quickly

Real-time insights with Ahead ActionBoard

SmartMirror: new in-elevator multimedia experience changes the way passengers enjoy their travel

**Note:** Innovations, tools and solutions mentioned above are representative only, and not all of them are applicable for the Schindler 1000 Plus.

Schindler Ahead DoorShow is our new advertisement and information solution for your elevator doors

# Mirrors and handrails

## Spacious and secure

Handrails convey a feeling of security. Schindler stainless steel handrails are designed to blend with car interiors, shapes and textures, and can be mounted to the rear wall.

Mirrors heighten the sense of space, depth and comfort in elevators. Your elevator can be fitted with a half-height safety-glass mirror on the rear wall of the car.

### Handrails

The handrails can be mounted on the rear walls. Different handrails can be chosen according to your preference.
