

Schindler 6500 interior design

Feel free to think out of the box.

Design options, colours and materials.

Freedom of design

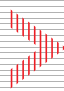

Create the look and feel you like. Combine colours, materials, lighting, mirrors, handrails and fixtures to achieve the ambiance that fits both your ideas and your building. Choose from one of our four interior design lines or design the whole car according to your own taste with the Libertà option.

Our favourite designs just give you an idea of what is possible and can be easily combined. If you like to be more creative, you can even design your own car.

The whole variety – in five steps only.

This elevator follows your ideas.

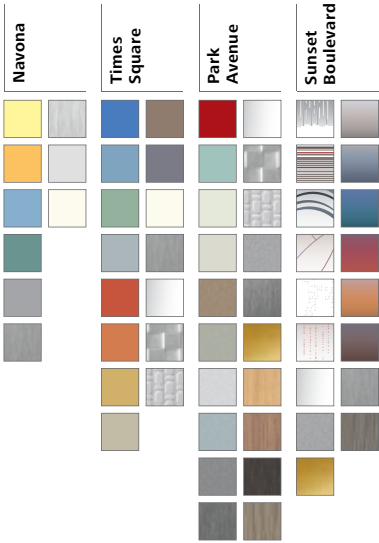

Your choice. The Schindler 6500 takes adaptability to a new level.

Step 1

Combine colours and materials.
Choose out of four design lines or combine with glass walls and doors.

Step 2

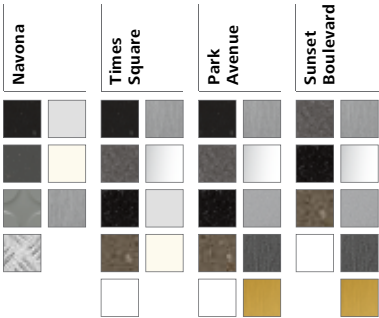

Select your operating panels.
Integrate stainless steel or glass panels in black or white.

Step 3

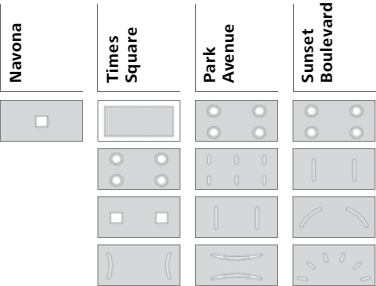

Pick a floor and ceiling.
Choose from stainless steel ceiling options with a matt or gold finish and matching floors.

Step 4

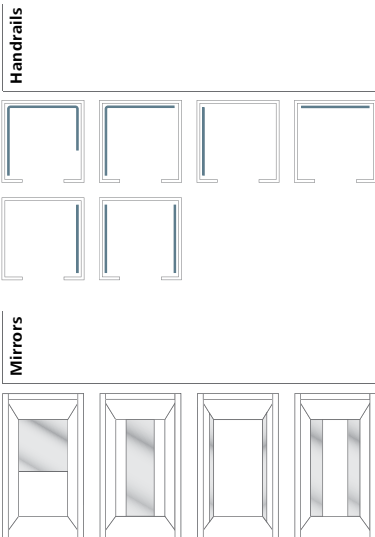

Choose the lighting.
Create ambiance with direct or indirect lighting and different lighting designs like square, spot or curve.

Step 5

Add options.
Handrails and mirrors complete the car. Illuminated handrails and skirtings are an additional highlight.

Fits your style

The bare car option allows up to 50 % of the car's rated capacity as additional weight for your interior.

Navona

Functional and durable

Provide clarity and solid comfort to your car with this robust design line. Fresh colours, a contrasting rear wall, the option of three different floors or a bare floor make Navona the right choice for residential applications.

Stainless steel can be added to rear and side walls. Navona stands for long lasting functionality right where it is needed.

Times Square

Modern and versatile

Determine your contemporary look. Choose from warm or cool colours to create a fresh look or combine the options to enhance contrast for more depth. Select glass

doors and walls for transparency. Use a bare car option to create your style and taste. Times Square adds distinctive features to any public, commercial or residential building.

Park Avenue

Sophisticated and elegant

Discover pure elegance with back painted glass walls or choose wood laminate to create a more contemporary ambiance. The optional wave design, a rounded transition from ceiling to rear wall, gives your car an unique appearance. An additional highlight is a gold or silver-

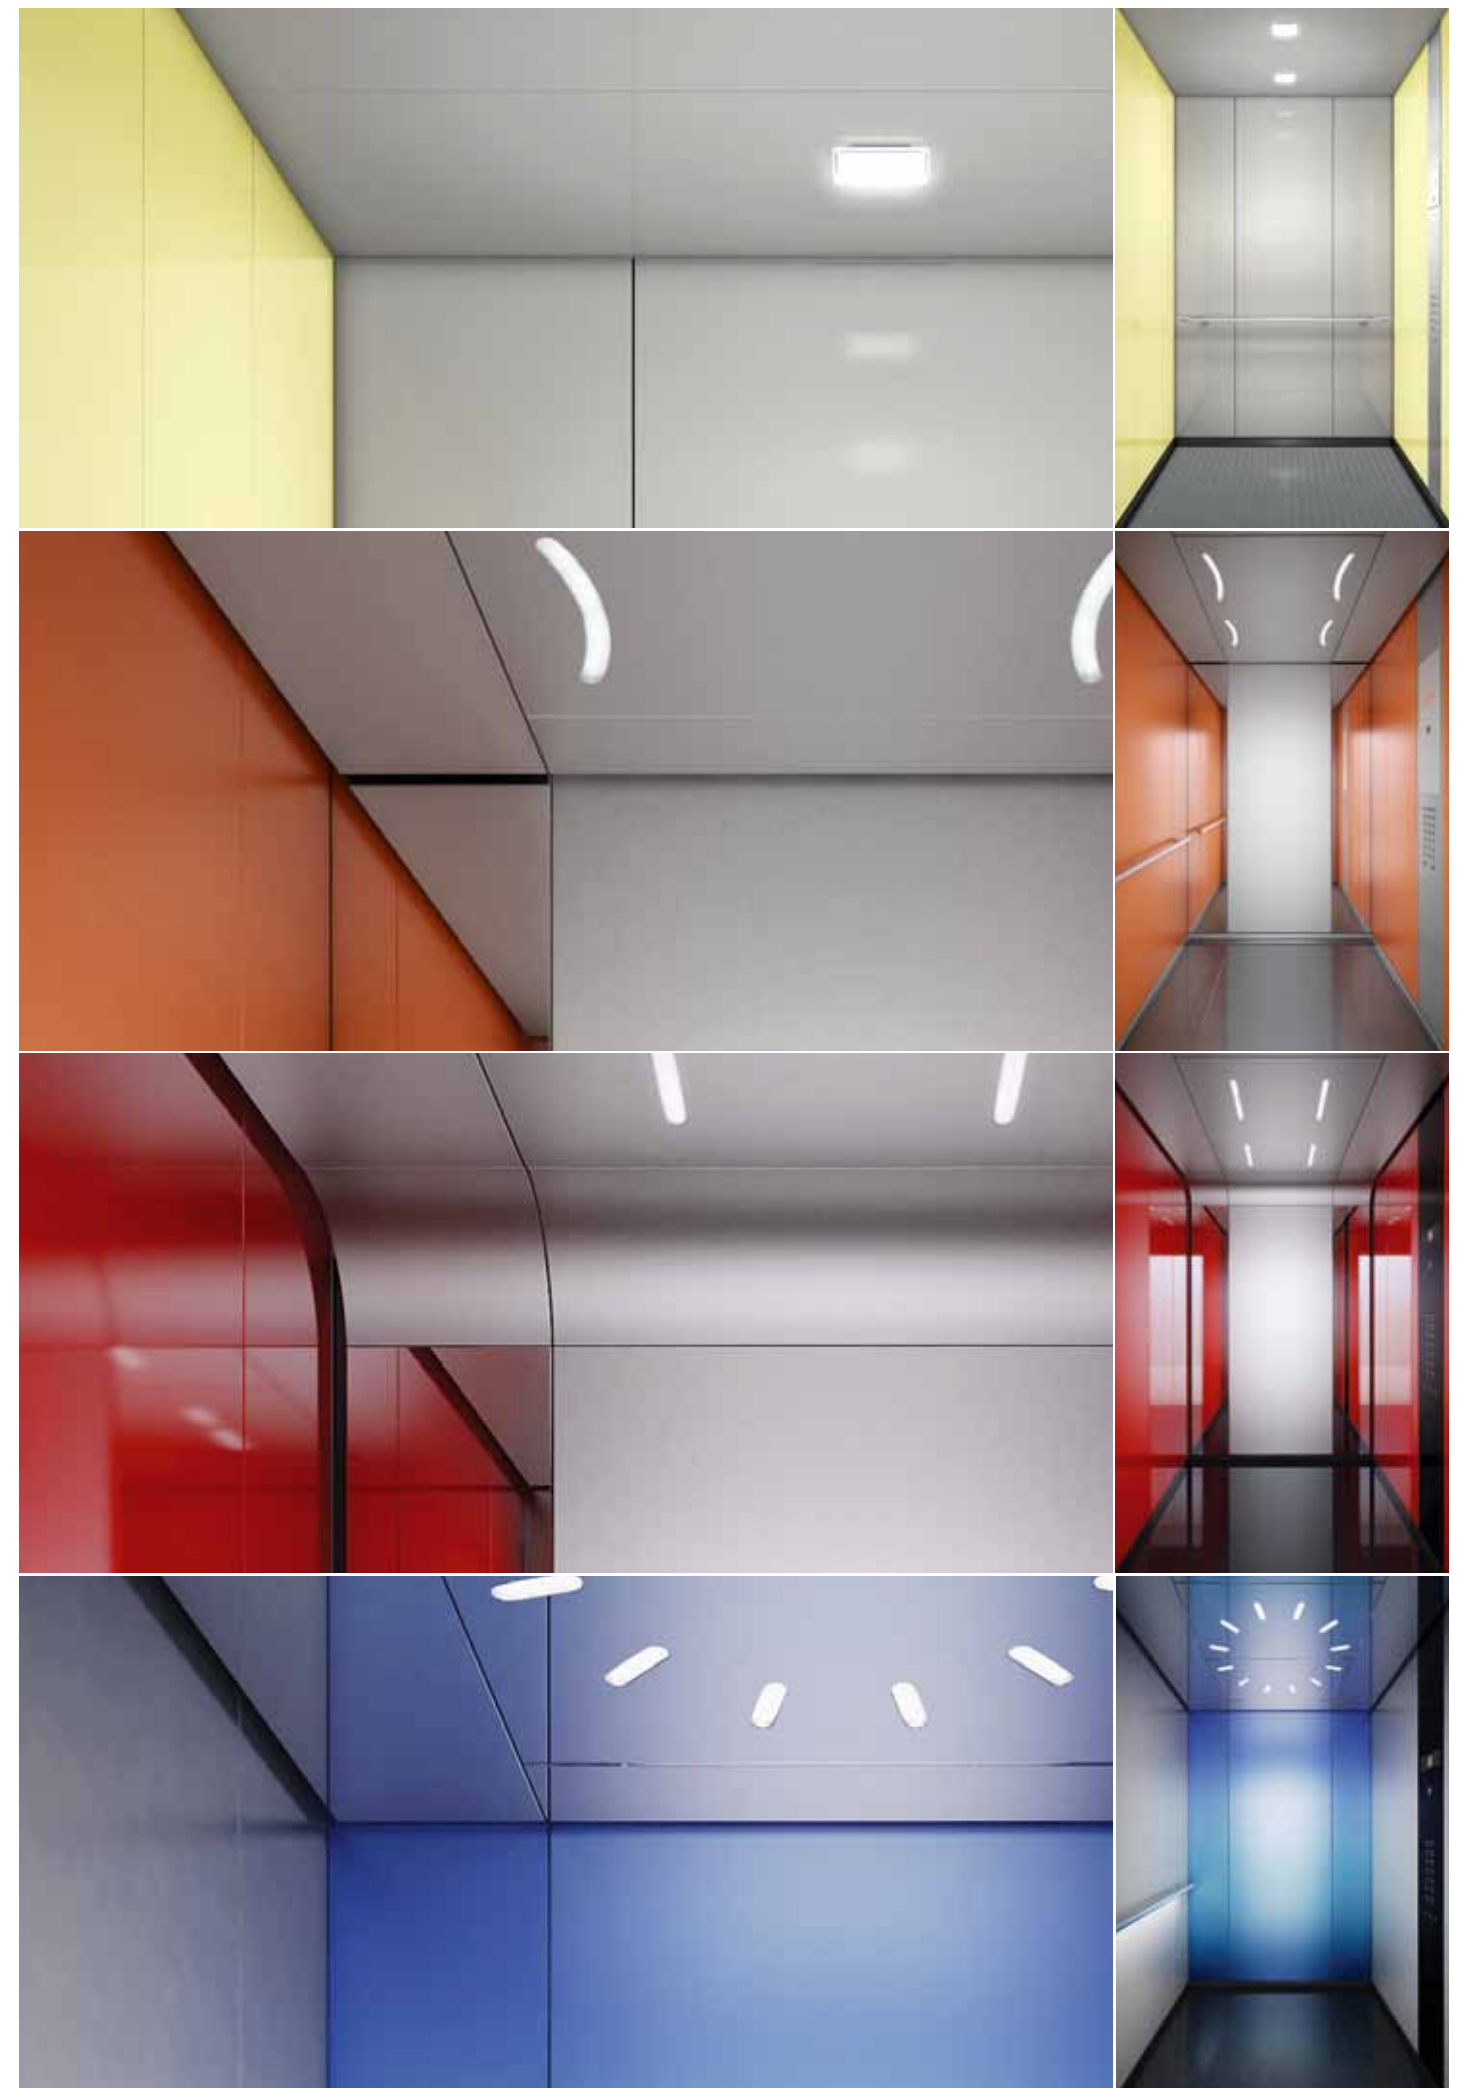

shimmer from our metallic glass collection or a bronze or satinated grey finish on stainless steel. Matched lighting perfects the stylish look of this design line – an ideal fit for representative buildings like high requirement residential, hotels and offices.

Sunset Boulevard

Inspirational and full of character

Aim high for passenger excitement in upmarket locations like hotels, clubs and restaurants. The combination of premium quality materials, captivating patterns and

splashy colour gradients makes this car an unique experience. Lighting and ceiling concepts create a fascinating atmosphere. Transform your elevator into your stage.

Multicoloured options

Play with fresh and vibrant colours. Choose from a range of warm and cold colours that look great on their own, but also stunning when combined.

Laminate and stainless steel

Create a different ambiance by selecting different materials. For a fresh look and feel, choose from colourful laminates. Stainless steel gives a more clean and modern look. Combine both materials for more individuality.

Glass walls and doors

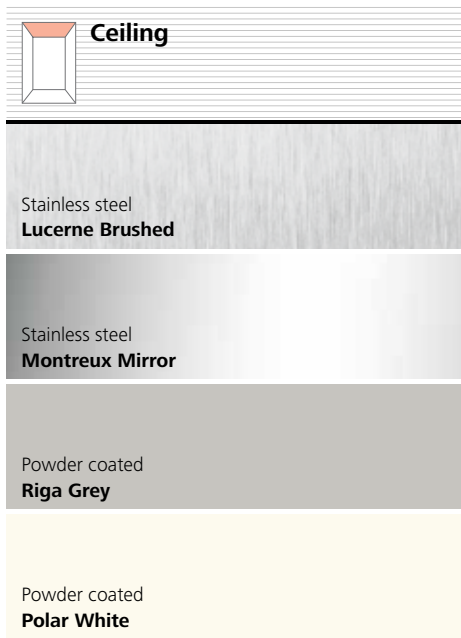

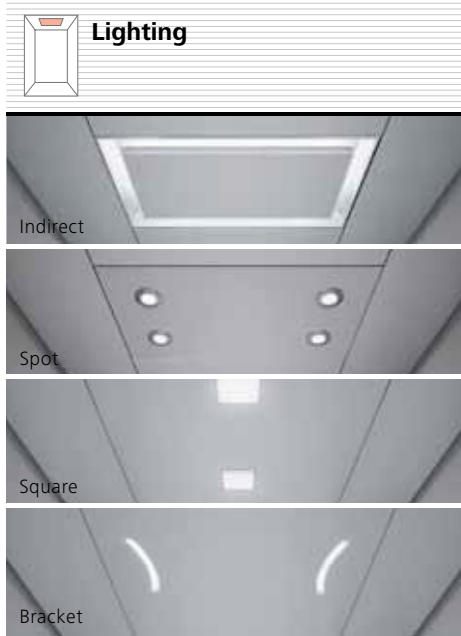

Add panorama to your elevator. Select glass panels for side walls or rear wall, or both for complete transparency.

Back painted glass

By putting colour behind glass, you create a high gloss and vibrant effect that adds a pleasant ambiance to your car. In order to make the back painted glass walls perfectly fit the overall appearance of the building, you can either choose from pre-selected colours or optionally specify any NCS (Natural Colour System) colour.

Wave

The optional „wave“, a rounded design element that beautifully merges ceiling and rear wall, provides the car with unique elegance.

Illuminated handrails and skirting

Highlight your car with illuminated handrails and skirting for a special effect and a lasting impression.

Glass walls and doors

Select transparent glass panels for side walls or rear wall, or both to add marvellous panorama to your elevator.

Grey

Digital print on satinated glass

Gorgeous and intense colours, emphasized through satin glass for more elegance. From atmospheric blue-red to warm grey-beige colour gradients, this design allows you to create a fascinating ambiance and an unforgettable ride experience.

Digital print on stainless steel

Create ambiance not only with colours but with eye-catching patterns printed on stainless steel. Choose clear structured geometrical forms or bold organic designs. No matter the size of your car, digital decoration patterns always look stunning.

Illuminated handrails and skirting

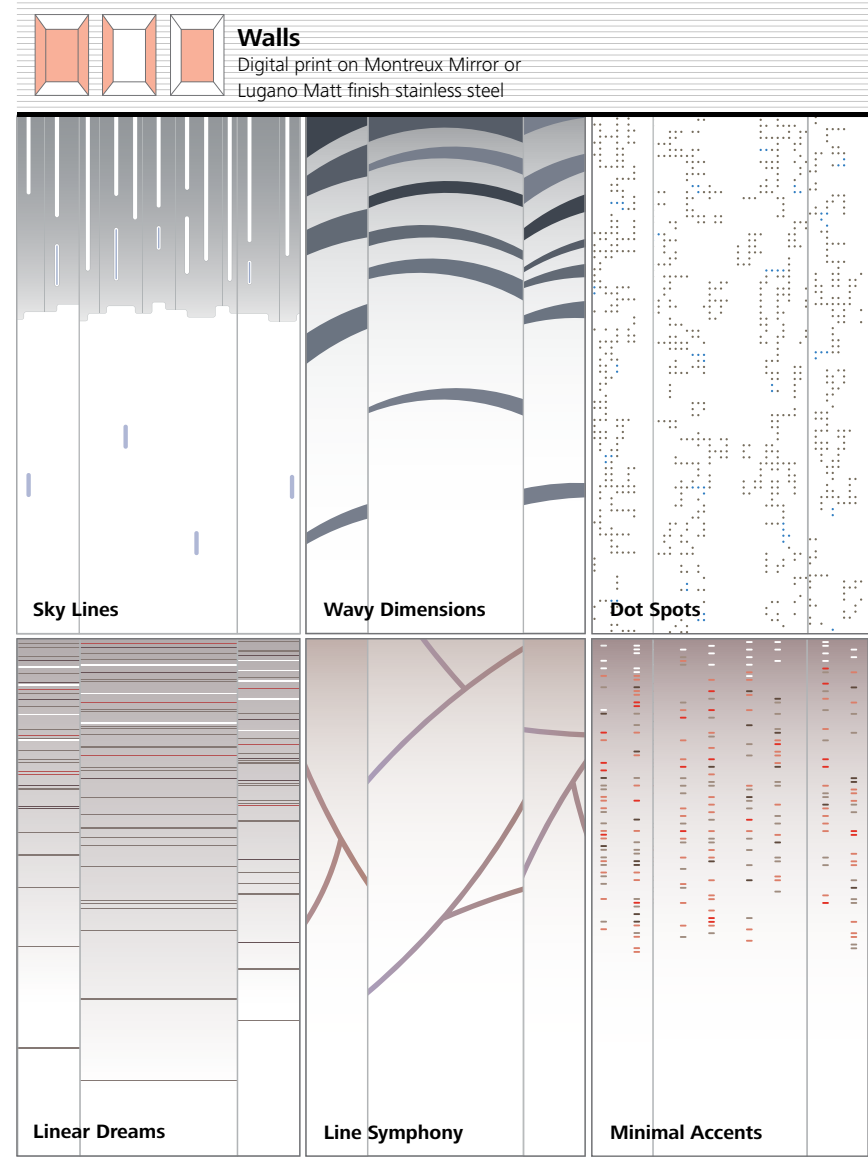

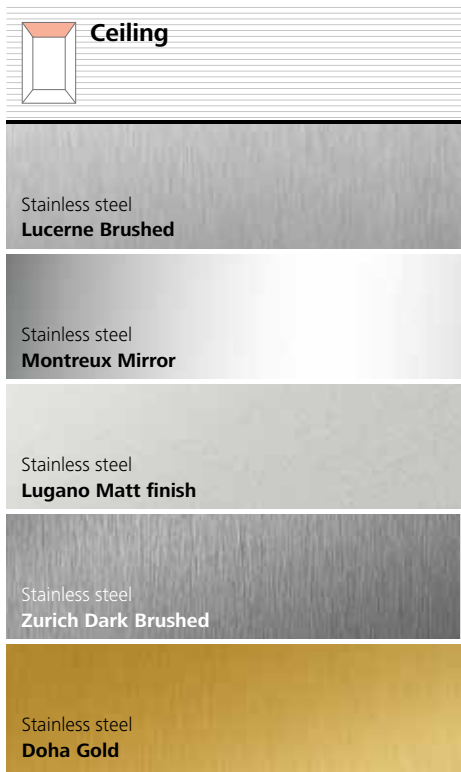

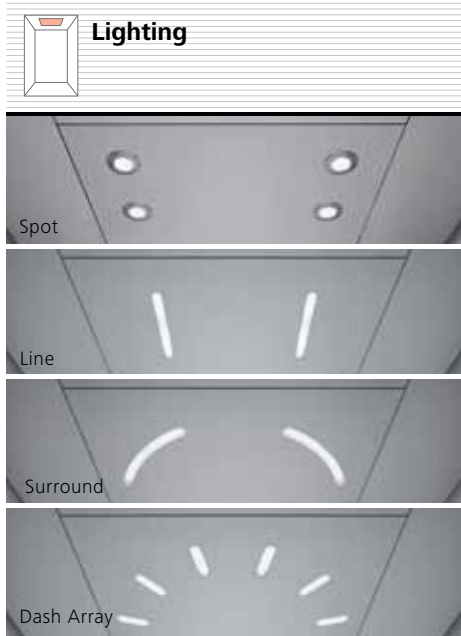

Small details, big impact. Illuminated handrails and skirting give the car a unique final touch.

Glass walls and doors

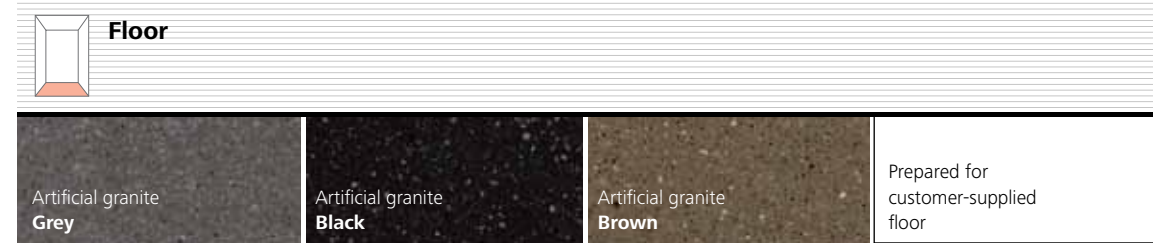

Add panorama to your elevator. Select glass panels for side walls or rear wall, or both for complete transparency.

Eye-catching transparency

From glass walls and doors to glass cars

Glass walls and doors for more transparency
 Experience maximum visibility and unique views like never before. Select from a wide range of glass doors that suit your application. Glass can be selected for side and rear walls of the car for complete transparency or combined with other car interior materials from the Times Square, Park Avenue and Sunset Boulevard design lines.

Frames for glass walls are available in two stainless steel finishes.

Libertà – Personalize your elevator

Do you want to put yourself in the design director's chair?

With the Libertà option, enjoy the possibility to create your own car interior with a free choice of combinations. Select the ceiling, combine any wall and floor colours from our 4 distinct décor lines and choose your options. The bare car option allows up to 50 % of the car's rated capacity as additional weight giving you full freedom for customized interiors.

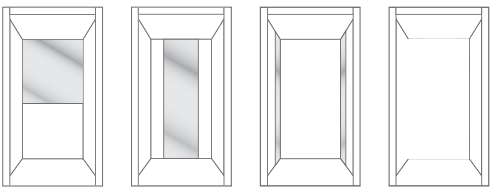

Lightings

Lightings complement the ambiance in your elevator. Select from 9 lighting styles with direct or indirect lighting to create the desired atmosphere in your car. Depending on car dimension one or two lighting elements are mounted. Elements Surround and Dash Array are only available in a limited range of car dimensions.

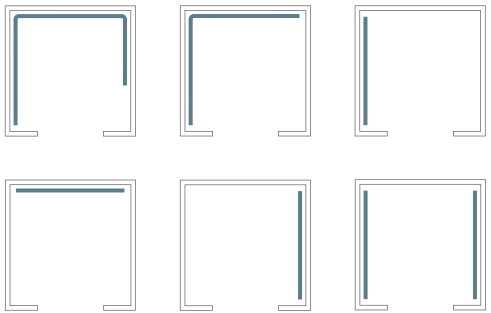

Mirrors

Mirrors always add a special sense of space to rooms and buildings. In order to give your car more appeal and depth, the side walls or the rear wall can be provided with a full-height or half-height safety-glass mirror.

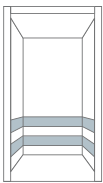

Handrails

Even though your elevator travels smoothly and with almost no sound, handrails convey a feeling of security. Stainless steel handrails match the interior and shapes of your car and can be mounted to the side and rear walls. Illuminated handrails and skirting are an additional highlight and add to the overall ambiance of the car. Available in straight, straight with curved ends and revolving layout.

Bumper rails

To protect your car wall from damage bumper rails can be mounted as an option. Choose from different heights depending on your requirements. Available in stainless steel, PVC or wood.

Note

Specifications, options and colours are subject to change. All cars and options illustrated in this brochure are representative only. The samples shown may vary from the original in colour and material.
