Schindler ElevateMe App

Touchless operation from smartphones

With Schindler's ElevateMe mobile application users can call an elevator and select their destination using their own smartphone. Available on both the iOS or Android operating systems .

Setup and installation

Connect

- Elevators need to be connected to Schindler's digital platform, which uses reliable SIM card-based 4G/LTE wireless connectivity.

Apply the QR codes

- QR codes provided by Schindler are placed on the door frames or around the elevator call buttons.
- The QR codes trigger the app installation if it's not yet installed, and the app includes instructions on how to use it.

Benefits for facilities

High level security. The app works with Schindler's digital platform, which provides a high level of security, safety and privacy.

One-stop solution. Schindler provides an end-to-end solution that includes the app, QR code sticker set, the cloud platform and connectivity.

Easy to activate. Installation and setup is quick and easy.

Benefits for passengers

Touchless operation. ElevateMe increases sanitization in elevators by decreasing the need to make physical contact with the controls.

True convenience. The app moves traditional rider-elevator interaction to riders' smartphones. It works with Siri Voice Commands, and allows passengers to program favorite destinations by building.

Intuitive use. The highly intuitive interface can be understood instantly and provides a smooth and enjoyable user experience.

Using the app to call an elevator

Scan the QR code

- Scanning the QR code with a smartphone camera will prompt first-time users to download the ElevateMe app.
- With the app installed, scanning the QR code will allow users to request an elevator.

Select destination floor

- Users then use their phone to select their desired floor and enjoy the ride.

Please note: Schindler CleanMobility solutions are not intended to prevent disease. These provide practical measures to maximize social distancing in a small space for a short duration and are they are not intended as a substitute for applicable CDC guidelines and recommendations.
