

Schindler 3300 California Fixtures

Schindler 3300 California Standard Fixtures

The features and components of the Schindler 3300 machine room-less elevators are designed to enhance the rider experience, improve safety, and minimize downtime. From the low-energy multiprocessor controls to the stylish operating panels, you'll find the latest technological advances.

Standard car operating panel

- Stylish stainless steel and tempered safety glass
- Door open/close and alarm buttons
- Braille
- Visual and audible call confirmation
- Position indicator
- Concealed Phase II Firefighters Service operation
- Attractive, metallic-finished pushbutton

Signalizations on car operating panel

Overload protection:

Red scale-shaped icon, along with an adjustable buzzer, that provides prompting of some off-loading of passengers or items. The message is also presented as "OL" in the car floor indicator position.

Central alarm:

Yellow bell-shaped icon that is visible only if activated by an alarm request. The icon is also accompanied by the sounding of the car top buzzer.

Voice communication:

Green phone-shaped icon indicates that voice communication has been established.

Earthquake:

Red shaking building icon depicts that a seismic event has been detected.

Medical emergency service:

A blue/grey box with white lettering depicts that a medical emergency has been activated.

Evacuation:

Red cab-shaped icon that indicates that passengers should leave the cab.

Car operating panel

Schindler 3300 California Standard Fixtures

Stylish stainless steel with tempered safety glass accents give the elevator a contemporary, modern look while meeting all applicable codes. Please refer to our deco brochure for more information on decor and accessory options.

Vertical combination hall lantern and position indicator

Hall pushbutton, Hall pushbutton, black glass

Note: The car specifications, options and colors in this brochure are representative only and are subject to change. Sample shown may vary from the original in color and materials.

Additional 3300 Fixtures California Optional Fixtures

In addition to the standard fixtures there is an optional fixture line offering a number of choices including vandal resistant hall and car fixtures as well as car operating panels designed for Schindler's Visual Communication System (VCS). The VCS car operating panel is available in both standard and vandal resistant.

Vandal-Resistant Landing Fixtures*** Protect your investment: optional vandal-resistant fixtures are engineered to withstand even the most challenging environments.
