Schindler 3300

California Standard Fixtures

The features and components of the Schindler 3100, 3300, and 3300 XL machine room-less elevators are designed to enhance the rider experience, improve safety, and minimize downtime. From the low-energy multiprocessor controls to the stylish operating panels, you'll find the latest technological advances.

Standard car operating panel

- Stylish stainless steel and tempered safety glass
- Door open/close and alarm buttons
- Braille
- Visual and audible call confirmation
- Position indicator
- Concealed Phase II Firefighters Service operation
- Attractive, metallic-finished pushbutton

Signalizations on car operating panel

Overload protection:

Red scale-shaped icon, along with an adjustable buzzer, that provides prompting of some off-loading of passengers or items. The message is also presented as "OL" in the car floor indicator position.

Central alarm:

Yellow bell-shaped icon that is visible only if activated by an alarm request. The icon is also accompanied by the sounding of the car top buzzer.

Voice communication:

Green phone-shaped icon indicates that voice communication has been established.

Earthquake:

Red shaking building icon depicts that a seismic event has been detected.

Medical emergency service:

A blue/grey box with white lettering depicts that a medical emergency has been activated.

Evacuation:

Red cab-shaped icon that indicates that passengers should leave the cab.
