Schindler Color and Lighting Options

For escalators and moving walks

Today's shopping malls are transforming into vibrant destinations for entertainment, leisure, and connection. Spaces once designed solely for retail are now being reimagined as dynamic, multi-purpose environments—inviting visitors to linger, explore, and enjoy memorable experiences. As part of the evolution, escalators and moving walks are becoming integral architectural elements that complement modern aesthetics. With customizable color and lighting options, these mobility solutions help create cohesive, contemporary environments that elevate the overall guest experience.

Escalators and moving walks are no longer just a means of transportation. They are part of the building design. Schindler color and lighting options can transform the outdated appearance of equipment into a sleek, contemporary design.

Wayfinding

Urban areas, cities with many metro lines, multimodal interchange stations: Passengers need guidance to find the right metro line without losing their way. People find it easier to orient by color than by number. Let's decorate escalators with color. Let's change metro stations into colorful places.

Ideal for:

- Metros, railway stations, airports and parking garages
- Shopping malls

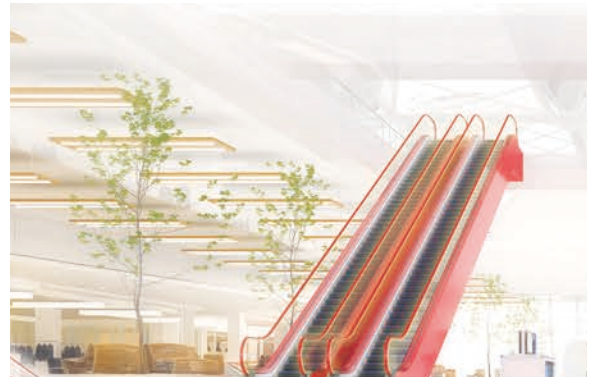

Color selection

Color improves our lives. With Schindler's wide range of customized color solutions, you will find the right combination.
