53 MONEY-SAVING PRODUCTS

The Mid-Rise Modernization solution contributes to **energy savings, ease of installation, and quick retrofitting** to any current system. Its technological upgrades include:

- Miconic TX controllers provide even traffic distribution.
- Power Factor 1 regenerative drives give energy back to the building.
- Varidor 50A closed loop linear door operators provide safety and reliability.
- Schindler Remote Monitoring proactively ensures optimal performance, helping return equipment to service up to 22% faster than traditional troubleshooting methods.

Mid-Rise Modernization Package by Schindler Elevator Corporation.
