

# Schindler SafeCall Emergency Phone Line

## More ease. Less hassle for GCs.

General contractors and developers can rest assured with the Schindler SafeCall wireless emergency phone line. With Schindler SafeCall, you can enjoy reduced risk for schedule delays due to elevator phone lines and alleviate the worry of failed elevator inspections due to phone line non-compliance.

As a general contractor or developer, the last thing you need to worry about on your new construction project is any schedule delays affiliated with the emergency telephone line inside your new elevator. Let Schindler establish and maintain the code-required elevator phone line and the headache associated with elevator phone line inspections.

With Schindler SafeCall you enjoy full compliance with local regulations, reduced risk for re-inspection/re-mobilization due to a failed phone line inspection, and potential cost savings. What's more, if your project desires or requires two way communications with Schindler's Visual Communication System, then Schindler SafeCall is included, satisfying all your emergency communication needs.
