

## Schindler Service Programs Reliable solutions for unique situations

Your building's design, occupants and traffic patterns are unique, and so are your service demands. Accordingly, Schindler Service has the flexibility to adapt to your building's unique environment using proven maintenance programs.

By evaluating your service response time demands, coverage needs and budget parameters, a Schindler Service Representative can help you determine

which of our maintenance programs best fulfill your specifications and will work with you to structure the program to suit your unique needs.

Schindler Service programs deliver assurance that your elevators and escalators are always available.
