Schindler Low Rise Traction Elevator Fixtures
3100, 3300, 3300 XL
Low Rise Traction Elevator Fixtures
3100, 3300, 3300 XL

The features and components of the Schindler 3100, 3300, and 3300 XL machine room-less elevators are designed to enhance the rider experience, improve safety, and minimize downtime. From the low-energy multiprocessor controls to the stylish operating panels, you’ll find the latest technological advances.

**Standard car operating panel**
- Stylish stainless steel and tempered safety glass
- Door open/close and alarm buttons
- Braille
- Visual and audible call confirmation
- Position indicator
- Concealed Phase II Firefighters Service operation
- Attractive, metallic-finished pushbutton

**Signalizations on car operating panel**

*Overload protection:*
Red scale-shaped icon, along with an adjustable buzzer, that provides prompting of some off-loading of passengers or items. The message is also presented as “OL” in the car floor indicator position.

*Central alarm:*
Yellow bell-shaped icon that is visible only if activated by an alarm request. The icon is also accompanied by the sounding of the car top buzzer.

*Voice communication:*
Green phone-shaped icon indicates that voice communication has been established.

*Earthquake:*
Red shaking building icon depicts that a seismic event has been detected.

*Medical emergency service:*
A blue/grey box with white lettering depicts that a medical emergency has been activated.

*Evacuation:*
Red cab-shaped icon that indicates that passengers should leave the cab.

Schindler Plan is an easy-to-use online planning tool that makes it simple to configure your elevator or escalator in minutes. Good elevator or escalator design plays a critical role in the quality of life and work in multi-story buildings. Schindler Plan was developed to enable accurate escalator or elevator preparation early in a project’s life cycle.
