

Schindler Ahead Made for today. Ready for the future.

Are your elevators and escalators thinking Ahead?

Schindler moves over one billion people every day. With the introduction of Schindler Ahead, equipment reliability, uptime and safety will be significantly improved and there will be an all-new superior passenger experience.

Client communications will benefit from better access to real-time equipment data, enabling the identification of possible service issues, all while providing smarter cost planning.

SCHINDLER AHEAD

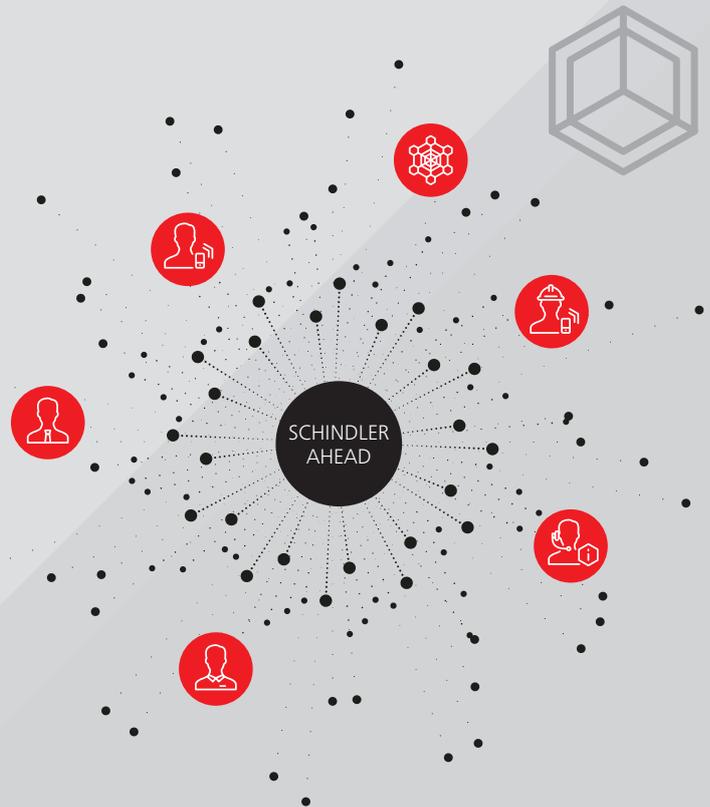

Schindler

Schindler Ahead

Connected to the Building Internet of Things

Imagine a platform where all involved parties are connected and necessary information is shared in real time. Schindler Ahead connects equipment, customers and passengers with Schindler's Technical Operations Center and technicians via its digital closed-loop platform.

Connecting the dots on the Schindler Ahead platform, customers and passengers will benefit from enhanced uptime, deeper insights, superior convenience and greater cost control.

Features

Digital Connectivity 	Cloud Platform 
Supports the latest connectivity standards like 4G/LTE, as well as future VoIP functionality.	Our cloud platform is the engine for Big Data analytics and Augmented Intelligence.
<ul style="list-style-type: none"> – Real-time analytics and knowledge generation 	<ul style="list-style-type: none"> – Capable of handling a variety of big data from equipment controllers and sensors
<ul style="list-style-type: none"> – Protected by the highest level of cyber security 	<ul style="list-style-type: none"> – Turns data into powerful insights with the application of advanced analytics and machine learning
<ul style="list-style-type: none"> – Fulfills global and local standards and required certifications 	<ul style="list-style-type: none"> – Supports open industry standards and enhanced application development
Ahead App Store 	Future Readiness 
The place to go when you want to download apps to interact with Schindler Ahead.	Make use of Schindler Ahead's powerful solutions today and be ready for the latest innovations.
<ul style="list-style-type: none"> – All available on your smartphone for improved convenience 	<ul style="list-style-type: none"> – New connected products and apps that integrate seamlessly
<ul style="list-style-type: none"> – Ahead ActionBoard shows status, performance indicators and usage statistics for your equipment 	<ul style="list-style-type: none"> – Future tools enable document handling and enhanced communication
<ul style="list-style-type: none"> – Benefit from FieldLink, Schindler's award winning digital tool case 	<ul style="list-style-type: none"> – Industry-first secure over-the-air updates

Turning data into results

Uptime: Data generated from connected equipment provides advanced analytics enabling Schindler to predictively identify, analyze and resolve possible service issues before they occur. This reduces and eliminates downtime, saving you valuable time.

Insights: Building owners and facility managers have access to operational, performance and commercial data about their equipment portfolio, leading to increased communication for better building maintenance and management.

Convenience: Interactive monitoring and connected devices provide a superior client experience. Schindler's Technical Operations Center and web-based tools like Ahead ActionBoard enhance the communication.

Cost Control: Potential cost savings from moving the elevator phone line and switch over to 4G connectivity. Reduction of unexpected or overtime shutdowns with a no running-on-arrival bill guarantee.
